FOR SPELLING REFORM.

A Scheme to Establish "Fonetic" Schools.

BILL NOW PENDING IN THE HOUSE.

It Is a Chicago Enterprise and $50,000,000 Are Wanted to Carry It Through—Something About the Scheme—The Republican Senatorial Caucus Selects a Successor to Sergeant-at-Arms Canaday—Capital City Notes of Interest.

WASHINGTON CITY, June 11.—The scheme to establish a chain of "fonetic" schools throughout the country bids fair to be carried to a successful issue, and that Chicago will be in the field seems to be generally understood. The bill appropriating $50,000,000 for the establishment of these schools is now pending before the house and will certainly have a hearing before the present session has been concluded. Senator Farwell and Congressmen Mason and Lawler are deeply interested, as are the majority of the senators and congressmen, and are lending their aid to the successful passage of the bill with an enthusiasm unexpected. It is a Chicago enterprise purely and is being pushed vigorously by Charles A. Story, the secretary of the United States Fonetic company. He is now here and doing yeoman service in the cause. To a correspondent Mr. Story said that he wished it distinctly understood that any criticisms or objections to the old and numerous methods of fonetic spelling heretofore offered to the public do not apply to the new science of spelling.

Not Like the Old Methods.

"The old fonetic methods," continued Mr. Story, "merely drop a few silent letters here and there—merely lop off or trim down a few of the worst excrescences from the old pagan system of spelling. The science of spelling constructs all the words of all the languages by rule and leaves out all the silent letters. The old so-called fonetic spelling is no more like the science of spelling than an Irish wheel-barrow is like a locomotive engine, or a mud-scow like a Cunard steamer. There is no kind of resemblance or similarity. Those old plans are mere patch-work, mere tinkering, mere hacking and hewing. They only prop up, or attempt to brace, the old, decayed, and crumbling methods of the pagan ages. The science of spelling builds a new and modern structure in place of the old ones, erecting the same on the solid rock foundation of science and common sense, with all the modern appliances demanded by our own land and time. Children can learn as much spelling in one month, using the rules of science as their guide, as they are now learning in two years. This has been proved many times in Chicago. Let the critics first inform themselves about the science and then blaze away. The science can stand all the intelligent criticism they can offer in a thousand years."

Praised by Professor Swing.

The speaker also stated that he had received a letter from Professor Swing, of Chicago, in which that well-known divine and learned man highly praised the idea of establishing fonetic schools. He hoped that the appropriation would be made, and as soon as possible. In writing on the subject the professor said that the introduction or invention of electricity and steam was a grand and invaluable innovation, but to his mind the "fonetic" system of spelling would be far greater, when so established as to be in general use. In fact, Professor Swing grew quite enthusiastic on the subject.

"The tariff bill and other questions now under discussion will preclude a hearing of the 'fonetic bill' for at least a week or ten days," concluded Mr. Story. "Meantime I will be busily at work at home."

CANADAY'S SUCCESSOR.

Republican Senators Select a Man for Sergeant-at-Arms.

WASHINGTON CITY, June 11.—The Republican senators held a caucus Tuesday evening to choose a successor to Sergeant-at-Arms W. P. Canaday, who has handed in his resignation, to take effect June 30. A numbers of candidates were presented to the caucus but the votes for almost all of them were complimentary. The leading candidates for the place were E. K. Valentine, of Nebraska, and Silas M. Bailey, of Pennsylvania. The fight had been between them for some time, although Deputy Sergeant-at-Arms Charles B. Reade, of Maine, has had a good following. Mr. Bailey was the candidate of Senator Quay while Mr. Valentine controlled most of the strength of the west, led by the senators from his own state. There were forty senators present at the caucus. The candidates put in nomination were Valentine, of Nebraska; Bailey, of Pennsylvania; Reade, of Maine; Reed, of Minnesota; Swords, of Iowa; Byington, of Connecticut; Wilson, of Montana, and Dunn, of Delaware.

Valentine Elected.

The votes on the first ballot were scattered widely but on the second the strength of the leading candidates was concentrated and Mr. Valentine, receiving 23 votes to Mr. Bailey's 13 was declared the choice of the caucus. Mr. Valentine was born in Keosauqua, Iowa, June 1, 1848. He was for many years a printer. He did honorable service during the war. He located in Nebraska in 1866; was appointed register of the land office at Omaha in 1869; shortly afterward was admitted to the bar and practiced law until 1875 when he was elected judge of the Sixth judicial district, serving in that position until he was elected to the Forty-sixth congress. He was three times re-elected to congress from the Third Nebraska district. The position of sergeant-at-arms is one of the most important in the senate. The sergeant-at arms is the executive officer of the senate and doorkeeper as well. The place carries a salary of $4,920 annually, and a great deal of valuable patronage.

In Senate and House.

WASHINGTON CITY, June 11.—The senate passed senate bill extending the criminal jurisdiction of the circuit and district courts to the great lakes and their connecting waters. Morrill from the committee on finance reported back favorably and with sundry amendments the house silver bill and gave notice that he would offer it as a substitute for the senate bill. The senate silver bill was then taken up.

The house has agreed to the conference report on the senate dependent pension bill—yeas 145, nays 56.

The House Silver Bill.

WASHINGTON CITY, June 11.—The senate committee on finance has reported back to the senate the house silver bill with important amendments. The provision making the certificates to be issued a legal tender is struck out; also the provision making the certificates redeemable in bullion on demand at the option of the secretary of the treasury; also the section providing that when the market price of silver is $1 for 371.25 grains silver it shall be lawful to receive bullion for coinage and purchase of silver bullion shall be suspended. A new provision was added limiting the operation of the proposed new law to ten years from the date on which it takes effect.

Foreign Emigrants to Cuba.

WASHINGTON CITY, June 11.—The department of state has been officially advised of the issue by the Spanish government of a royal decree, article 14 of which states that foreigners emigrating to the island of Cuba as colonists or field workers may introduce into the island, without payment of tariff duties, their baggage, implements, etc.; also two head of cattle, horses or mules, and four head of small live stock. The sons of such emigrants are exempt from military service, provided they work four years as agricultural laborers.

SEEMS A PERILOUS STUDY.

Something Akin to Hypnotism and Its Effect in Two Cases.

BOSTON, Mass., June 11.—A startling novelty in the education of girls is a course of "mind concentration," which is a part of the curriculum of Lowell seminary at Auburndale. Although mentioned in the catalogue it escaped public notice until several of the students who reside in Newton succumbed to something akin to nervous prostration, caused by the treatment.

Two Girls Seriously Ill.

Two girls were taken seriously ill some six months ago, and have since been under mesmeric influence a greater part of the time, lying on their beds unable to move a muscle, and, except for the occasional opening of the eyes, they bear every appearance of being dead. The family physical becoming alarmed, called in several experts in nervous diseases, but all medicines and the most careful and attentive nursing has failed to arouse them from their state of lethargy.

How "Concentration" Is Taught.

A portion of the instruction is to place the student prone on the floor, and while in this position the instructor commands the student to allow her entire nervous and mental system to relax fully, and become absolutely beyond thought or control. This relaxation, which is an essential point in the instruction, must be so perfect that when the instructor lifts an arm, or a limb, or a finger, it falls as if entirely lifeless.

Refuse to Accept Their Share.

OTTAWA, Ont., June 11.—The Methodist conference, now in session here, has adopted a resolution expressing its refusal of any share of the $60,000 awarded the Protestant denominations in Quebec in connection with the settlement of the Jesuit estates. This action is entirely unexpected and will place the Quebec government in a queer position. Though the Jesuits for a century had pressed their claim for compensation for the confiscation of their property by the crown, no statesman gave it a moment's consideration until Premier Mercier appeared on the scene. The compensation awarded amounted to nearly $500,000, of which the Catholics received $400,000.

More About That Circus Riot.

BANGOR, Me., June 11.—Further particulars of the circus riot at Ellsworth shows that the trouble was begun by some Ellsworth toughs who insulted a female trapezist and then assaulted her. Her husband came to the rescue and both were jumped on by the hoodlums and brutally assaulted. The woman was knocked down and kicked in the stomach and may not recover. The other circus men then took a hand as the Ellsworth police refused to arrest the assailants. The primary cause was the unrestricted sale of liquor in town during the stay of the circus.

Failure on the Chicago Board.

CHICAGO, June 11.—The board of trade firm of Robert Warren & Co. failed to pass the clearing house in the morning. Wheat and short ribs, both of which articles the firm was a heavy holder, dropped sharply in price when the failure became generally known. The assets and liabilities are not known. Mr. Warren said that he could have sold his wheat at the prices ruling about two weeks ago to net him $160,000 profit, but the decline of the last few days had ruined him.

Heavy Robbery of Jewelry.

AMSTERDAM, N. Y., June 11.—The jewelry store of W. D. Norton, at Gloversville, Fulton county, was broken into by burglars, and jewelry to the amount of $15,000 was stolen. The articles taken consisted of 200 old watches left by customers to be repaired, 400 new gold and silver time pieces, 1,000 rings and a number of chains, lockets, and charms. All the solid gold articles in the place were confiscated. The burglary was the work of experts.

Class Day at Vassar.

POUGHKEEPSIE, N. Y., June 11.—The class day exercises of Vassar college began Tuesday in the college chapel and the little hall was crowded. Ruled Off the Trotting Tracks.

After discussing thoroughly the Nelson-Noble alleged job, the board ruled off of all circuit tracks the horses Alcyron and Nelson, together with their owners, George Robens, F. L. Noble, and S. H. Nelson. Pittsburg was admitted to the association.

AGAINST NEW YORK MEN

Appeal to Democrats by The Rocky Mountain News.

GIVE THE SOUTH AND WEST A SHOW

Strong Ground Against the Nomination of Either Cleveland or Hill for the Presidency in 1892—Two Hundred and Seven Ballots Taken for Mr. Carlisle's Successor—Meeting of the South Dakota Democratic Convention.

DENVER, Colo., June 11.—The Rocky Mountain News, the leading Democratic paper in the west, contains a double-leaded editorial which takes strong grounds against the nomination by the national Democracy of either Cleveland or Hill, or any other New York man for president. The News states that this de sire is not the outgrowth of hostility to either of these gentlemen, but the attitude of the party in going to New York for a candidate ever since the war has sectionalized the party, the south and west have been compelled to submit to New York, and with New York to Wall street.

New York Controls the Party.

Until these bands are broken the Democratic party can never claim to be what its founders made it. Since 1873 the country has been suffering from the evil effects of silver demonetization. It was partially restored by Democrats in 1878, and ever since the masses of the party have favored its complete restoration. The tariff issue is insignificant in importance to this financial issue; the south, west and northwest are in favor of the restoration of silver. New York alone dominates and controls the whole party in this great financial struggle. Democrats in congress are almost a unit for free coinage. In national conventions this candor vanishes in superstitious fear that only a New York candidate can be elected.

A Fatal Weakness.

New York will never cast its vote in convention for one not bound in bonds of gold to Wall street. Even before Cleveland was inaugurated he shocked the country with a letter in opposition to silver. If Cleveland or Hill were nominated neither could escape from his Wall street environment. The convictions of the St. Louis convention which nominated Cleveland were smothered. The Democratic party by conceding it can win success only through a New York nominee, admits fatal weakness and almost merits defeat. The News concludes by an appeal to the party to give the west and south a chance.

POLITICAL NOTES.

LITTLE ROCK, Ark., June 11.—The Union Labor party of Arkansas met in convention here, and about thirty-six delegates were present, representing thirty-three out of seventy-five counties. MORE TROUBLE AT COLUMBUS.

Two Citizens Arrested for Blockading the Street Car Tracks.

COLUMBUS, Ohio, June 11.—The Columbus Consolidated Street railway made another effort to start cars Wednesday morning at 10 o'clock, and the results and scenes enacted were similar to those on Monday. The cars had proceeded but a few squares, where thousands had gathered and the tracks were blocked with stone and rubbish. One of the new employes was driven off by threats of arrest for receiving money under false pretenses. He had been bought off by the strikers. The women took a big hand in stopping the cars. The mayor was present and ordered the arrest of two citizens who were blocking the tracks. The situation was threatening, but no one was injured. The employes at some of the leading manufactories closed down and turned out as soon as they learned that cars were to be started. Their object was to aid the strikers.

Furniture Manufacturers Meet.

CHICAGO, June 11.—The National Furniture Manufacturers' association met in convention Wednesday morning at recital hall, Auditorium building, with nearly 100 delegates in attendance. CHARGES OF BRIBERY.

Excitement Among the Members of the Massachusetts Legislature.

BOSTON, June 11.—There was excitement among the Massachusetts legislators when the charge of bribery was boldly made by one of the members of the house. The matter grew out of the elevated railroad bills. There have been three of these before the legislature—the Meigs, the Mack, and the West End. The former has been passed and the latter was up for amendments when George Fred Williams, a young Mugwump from Dedham, said, in the course of a heated debate: "If the house desires, I will remain silent during the rest of this debate, but first I have something to say, and I say it as a question of privilege. I know something of the methods whereby a vote has been reversed.

Being Carried by Corruption.

"Rumors are current that this bill is being carried by corruption, and I believe that they are true. I move a committee of investigation into the methods that have been adopted in carrying this bill through, and, let me say, if I could cover the senate I should praise God if I could bring them to join in the resolutions for an investigation as to the methods which have been adopted in the other branch. I give notice that if they choose to accept the challenge I will give them exidence of an effort of one of their number to get money for his vote."

The greatest excitement prevailed in the house, and the affair was only quieted by the referring of the question to the committee on rules.

ARKANSAS BANDITS.

They Derail and Rob a Train on the Texas and Pacific Road.

TEXARKANA, Ark., June 11.—The belated train on the Texas and Pacific which left here at 11 o'clock at night was robbed at what is known as Four Mile Junction. A switch was thrown and the train derailed. An unknown man who was stealing a ride was instantly killed. Express Messenger Nesbitt resisted the robbers as they entered the express car and was fired upon. The robbers then went through the express safe and made their escape. It is claimed that they secured less than $200 in the express car.

Shot the Messenger Twice.

After they had gone through this car the robbers marched the engineer, and fireman, and messenger about 100 yards from the railroad track, seated them on a log, and told them to stay there with their eyes shut for one hour. When the bandits had gone a distance of about fifty yards they turned and fired a volley at the men on the log. The messenger was shot through the left hand and another bullet pierced his left ear. The robbers then disappeared. It required but a short time to notify officers here, who at once went in pursuit of the bandits. One man has been arrested and is now in custody, but has not yet been fully identified.

WANTED TO MARRY A CHILD.

An Old Man and His Would-Be Mother-in-Law in Trouble.

NEW YORK, June 11.—A weather-beaten old man of 62 years and a sun-browned country girl of 12 came to the city hall seeking a license to marry. The girl's mother, who was of the party, had consented to the match and was aiding in the preparations. In some way they were directed to the city hall police station. Sergeant Ryan was about to help them find a clergyman when he discovered that the child was to be the bride, and not the woman as he had supposed. He frightened the mother by telling her she would be guilty of a serious crime if she married her daughter to the old man. The interesting trio came from Orange, the would-be groom being Benjamin Moyer, a Mason with a bank account. He and the woman were locked up at the Oak police station, while the girl was put in charge of the Children's society.

Can Not Be Collected.

MARSHALLTOWN, Iowa, June 11.—It was ascertained here by referring the matter to the county attorney that the back county claims alleged to be due many volunteers from this county cannot be collected, being barred by the statue of limitations after five years from the time the said bounty was authorized by the county board, as decided by the state supreme court in 1873 in a similar case. This being true, many veterans will lose the bounty to which they were once entitled and the county is saved an enormous expense.

A Gigantic Banking Scheme.

PHILADELPHIA, June 11.—The American and European Banking and Financial company, which has been organized by Wharton Barker, Messrs Wilbur, Dekeem, King, Converse, and others, with a capital of $25,000,000, will have branches in Paris, Berlin, Vienna and other European cities. The main offices will be in Philadelphia and London. Several large English capitalists are interested in the enterprise.

A Duel with Lassoes.

MOORE STATION, Tex., June 11.—Two Mexican cowboys living near here had a singular and fatal duel. Their names were Jose Cariasco and Manuel Basco. They met in the road, quarreled about a cow and endeavored to lasso each other. Cariasco lariated his opponent by the neck, dragged him from the saddle and set off at full speed. Basco was dragged nearly a mile. His neck was broken.

Chicago Reaching Out.

CHICAGO, June 11.—A resolution favoring the consolidation of all the village, township, city and county organizations in Cook county into one central government as the municipal city of Chicago, has been referred to a committee of the county board. This resolution promises to lead to an interesting agitation, culminating, probably, by action by the state legislature.

The children had been fishing, and the boy built a fire to roast some frogs. Becoming enraged at his sister for some trivial action he dragged her to the fire and held her over it until her clothing became ignited. He thought he could extinguish the flames without seriously injuring her, but he delayed too long, and all efforts to put them out failed. In her desperation the poor child threw herself into the creek. Some men who were passing arrived just in time to save the life of the boy, whose clothing had also caught fire. Our village officers met at the office of W. R. Evans on last Thurday for the transaction of business. They passed upon several ordinances and appointed A. J. Gardner village constable and street commissioner.

Mr. Jordan, agent of the I. D. & W. here, lassoed a weasel last Wednesday by making a noose with a string and placing it over the hole the weasel ran into, and when Mr. Weasel put his head out to view the surroundings Jordan gave the string a jerk and captured him.

Children's day was celebrated at the M. E. church last Sunday with appropriate ceremonies. The church was beautifully decorated with flowers and evergreens and the people that attended were very attentive and everything was harmonious and all acted their parts well. A happier lot of children never met than were there.

The Misses Ellen and Mary Lukens will occupy the Kippenham residence.

The Misses Ellen and Mary Lukens and Dr. E. S. Carr were among the Decatur visitors Wednesday.

W. I. Dunbar will put another elevator in his grain house—a needed improvement. The old dump will be moved and placed on the east side of the elevator forming an addition to the same. The Central will most probably extend the siding at this point 300 feet. When this is done we will stand back for no town when it comes to handling grain rapidly and conveniently.

The following delegates have been elected to represent Argenta Good Templar lodge in the county convention at Decatur this week: Flora Fesler, Mrs. W. T. Willhoite, Mrs. J. W. Patterson, Robert Barton and Walter Carr. By virtue of their respective offices, Edgar Six, Miss Edna Welton and J. W. Patterson are also delegates. The lodge at Argenta will be well represented and will no doubt hold its own in the convention.

The proprietor of the Ogden (Champaign county) News was here Monday prospecting in the interest of starting a newspaper here. Just what his conclusions were could not be learned, though our business men guaranteed him liberal sums for advertising during the first six months of the paper's existence. With the encouragement he got there is no visible reason why he should not come. This is a good point for a country paper and if he does not take it in it is hoped some wide-awake man of pluck will. We want such an enterprise.

Decatur Miners.

The miners of Decatur, since they resumed work last Monday, appear to be a happy and contented lot. There never was any dissensions in their ranks before their late suspension and since then there has been nothing to create even the slightest ripple of disappointment among the ranks of the miners. From information in the possession of THE REVIEW it feels safe to say that the miners feel that only good words and good feelings should be entertained for the superintendent, Mark Moran. They do not think he is in any way to blame for the late difference existing between the miners and operators, and THE REVIEW is glad of it. It always pleases this paper to find people on the right side, and it is never slow to give credit to whom credit is due.

"Naiad Queen."

The performance of the "Naiad Queen" at Danville is thus described by the Danvile Commercial.

"The diligent training the two hundred gentlemen, ladies and children, received in the past month from Professor Walter C. Clark has been a lasting benefit to the children's musical education, and their presentation of the most exquisite musical creation next week will be the most pleasant surprise that our theatre-goers will enjoy this season. All the more important solos are well sustained, and the choruses are beautifully produced. It would be spoiling a very handsome musical feast to particularize or analyze the different scenes in the five acts, all of which abound in bright and sweet music and scenic effects."

Inherited Scrofula.

Swift's Specific (S. S. S.) cured my little boy of hereditary scrofula, which broke out all over his face. For a year he had suffered, and I had given up all hopes of his recovery, when at length I decided to use S. S. S. After using a few bottles he was entirely cured. Not a symptom now remains of the disease. This was three years ago.

TRADE S.S.S. MARK

In the early part of last year I had a violent attack of rheumatism, from which I was confined to my bed for over three months and at times was unable to turn myself in bed, or even raise the cover. A nurse had to be in constant attendance day and night. I was so feeble that what little nourishment I took had to be given me with a spoon. After calling in the best local physicians, and trying all other medicines without receiving any benefit, I was induced by friends to try Swift's Specific (S. S. S.) I discontinued all other medicines, and took a course of S. S. S. thirteen small bottles, which affected a complete and permanent cure.

THE COUNTY FATHERS.

The Review Makes The First Inning—The Peoples' Paper.

Bills against the county were referred to their respective committees.

The janitor was allowed $1 per day for care of council rooms during its occupancy by the county board.

The printing committee through its chairman, reported that bids had been received for printing rules of orders, viz:

Herald-Despatch, $11.
THE REVIEW, $8.00.
The Republican, $8.00.

And that THE REVIEW be given the work at $8.00.

The committe on printing reported bids for publishing the proceedings of the county board at $5 a column from THE REVIEW and Herald, and it was resolved that both papers should state the total amount wanted.

Mr. Holman made his quarterly report. The bond of overseer of the poor, W. A. Holman, was approved.

A Good Institution.

The Woman's Exchange is growing in popularity with both depositors and customers. The sales last month amounted to nearly $400. Of this the greater part goes to the depositors, of whom there are now 80. The best cooks as well as some of the best women in the city are among the depositors. Several of them are almost supporting their families by what they make on articles sold at the exchange. Of course the margin between the cost of the articles of the amount received is not large enough to make any very luxurious living for anybody, but it affords an addition to the slender support of the industrious depositor. Some of them are paying for their homes with what they make on the articles sold. If the founders of the charitable union had done nothing else, they would have a great deal to be thanked for in establishing the exchange alone.

It was In Demand.

The talk of the town yesterday was THE REVIEW'S Illustrated Trade and Industrial edition, and it caused many flattering comments which our innate modesty forbids us to reproduce. The rush for extra copies was as tremendous as it was unexpected. Notwithstanding the fact that it was announced that we would not be ready to fill orders till Thursday, the orders came piling in and the supply was exhausted again and again, the demand being so much greater than the capacity of the bindery. We will start out this morning with 2,000 more copies and hope to be able to keep up with the procession. So don't be afraid to send in your orders.

Basket Picnic.

A basket meeting will be held at J. Savage's grove, three miles north of Oakley, near the iron bridge, on June 15, 1890. This is the program: At 10:30 a. m. opening sermon by J. H. Crowder, subject, "The Life of Faith; dinner at 12 m., Sabbath school at 2 p. m., opened by J. C. Peck, the four schools in one, each school preserving its identity, closing with 15 minutes song service led by S. P. Nickey; sermon at 3:15 p. m, title, "Christianity vs Infidelity." Ordinance of baptism at river at 4:30, closing with song, "God Be With You Till We Meet Again."

Smith Is a Winner.

There was quite a lively legal contest yesterday before Judge Nelson, between attorneys A. F. Smith for the plaintiff, A. L. Stewart, in the trial of right of property and I. D. Walker for the defendant, growing out of the attachment suits against John H. Hood. The court deceded that Mr. Stewart should have possession of seven granite head stones purchased of Hood but levied on by attachment.

Topics for School Officers.

At the meeting of the school officers association on Saturday, June 21, these subjects will be discussed: "How to Procure Text Books," leader, E. A. Gastman; "Annual Reports," leader, Joshua Green; "Duty of Directors to Visit Schools," led by T. L. Evans.

Turtle Soup.

The colored camp meeting at Oakland park will attract a big crowd, and it will be well to remember in this connection that at Matheny's refreshment stand will be served that most toothsome delicacy, turtle soup.

Postponed.

The Young Peoples Literary society of the Universalist church postponed the program last night until next Wednesday night on account of the rain.

Quietly Married.

Lewis E. Foster and Miss Alverda L. Scott were quietly married last night at the bride's home, 852 West Wood street. The ceremony was performed by Rev. M. D. Hawes in the presence of about 15 of the most intimate friends and relatives. After the heartiest congratulations had been extended and wishes for many years of happiness had been expressed, the company discussed an elegant wedding supper. Mr. and Mrs. Foster departed on the midnight train for Chicago, where they will visit a few days. On their return they will occupy the handsome new residence on North Main street as soon as it can be fitted up.

Both the young people are well known. The groom in his position of chief clerk in Superintendent Bresie's office occupies a place of great responsibility. He has already shown that he is a man of more than ordinary ability, and his success in life is now made certain by the good judgment he has shown in the selection of a helpmeet.

To St. Louis.

Perhaps 100 people from Decatur will go to St. Louis to-day to attend the convention of the United Society of Christian Endeavor and to take advantage of the special rates made by the railroads. At least 60 members of the society will go. A special car will be put on the train leaving this morning at 6:30. It was set out near the depot and a committee of ladies decorated it elaborately with flags and streamers.

Among those who will go are Misses Mame Lewis, Hattie Brown, Alice and Lucy Roberts, Maggie Laforgee, Rev. T. W. Pinkerton and wife, Mrs. James Locher and daughter, Miss Fannie Locher.

The K. of P. Encampment.

Officers of the uniform rank, K. of P., have received the program of the national encampment, to be held at Milwaukee, beginning July 9. The division here has not decided to go, but a decision will soon be made. A rate of 1 cent a mile has been made to some divisions in neighboring cities, and the members in Decatur think they can do as well. A number of tempting prizes are offered.

We couldn't get THE REVIEW illustrated supplement from the bindery yesterday fast enough to supply the demand, but we will have 2,000 more from the bindery this morning and hope to be able to fill all orders promptly till the supply is entirely exhausted, which it seems highly probable will be in a few days.

WONDERFUL COINCIDENCE.

A Story of Local Interest Told by a Pennsylvania Attorney.

St Louis Republic.

The remarkable story told by ex-District Attorney John W. Johnson, of Lancaster county, says the Philadelphia Inquirer, is not likely to have many parallels. About three years before the war, acting on the great Greeley's advice, young Johnson got as far west as Illinois. His cousin, Frank Price, and Kersey H. Fell, had preceded him there from Chester county and were well established. They put some legal matters in his hands that needed attention, and on April 30, 1857, he found himself in Decatur, then enough of a railroad center to be the intersecting point of two Illinois roads. Connections were faulty here and Johnson found that he would have to lay over the greater part of the day until the next train came along. Presently he noticed another young man, who, it afterwards transpired, was in a precisely similar situation. They fell to talking and walking together. As a pair of scales stood near by they jumped on and we were weighed. Each tipped the beam at 145 pounds. This excited some surprise as the one seemed taller than the other. They then measured their heights. Each stood 5 feet 9 inches. Still more remarkable, however, was the coincidence that now came out, that the one was born on the same day of the identical year on which the other was ushered into the world.

"Well, now," said the surprised young lawyer, "what's your name?"

"John W. Johnson," came the reply, "and what's yours?"

"John W. Johnson."

So it was that these two young strangers, accidentally thrown together, found that their respective weights, heights, ages and names were identical. Both were also Pennsylvanians. The Lancaster John W. Johnson vouches for the truth of this remarkable series of coincidences. He has never seen the other John W. Johnson from that day to this, but often wonders as to the whereabouts of the man whose remarkable resemblance to himself in so many particulars beats the records of the oft-sung "fellow who looks like me."

A Little Red Bug.

The farmers are complaining that the little red bugs that appeared in this county for the first time last year and did so much damage to wheat, are again in the wheat and oats and are destroying by the wholesale. The bugs are even more numerous than they were last year. The farmers know of no prevention. They increase with wonderful rapidity and while the young hatch among the grain of the wheat they feed upon the stalks. There is no wheat to spare this season and the farmers are feeling very blue about the invasions of these little red warriors.

Prof. Forbes, of the State university at Champaign, and the state entomologist, reports to Secretary Garrard, of the board of agriculture, that he has commenced the investigation of the pest that is destroying the wheat and oats and will report as soon as the investigation is completed. Samples of grain damaged by the pest have been sent to the department of agriculture from various parts of the state and the farmers are greatly exercised by reason of its depredations.

A Fake Report Brings Luck.

Jacksonville Journal.

The recent article published by The St. Louis Post-Dispatch, relating to a conversation which was supposed to have taken place between a Dispatch reporter and Col. E. C. Krieder, of this city, in regard to the condition of the crop of Illinois and western states, resulted rather curiously in one instance. A prominent grain dealer of Carrollton, Mr. Pegram, who thinks that Col. Krieder's judgment on the wheat market is always sound, happened to see the article in the paper named the day after and became so impressed with it that he boarded a St. Louis train, went up on 'change and bought 250,000 bushels of wheat. He sold his purchase out a few days ago at a profit of $33,000. His confidence in the colonel's judgment is of course all the stronger now, but the joke of the thing is that the Post Dispatch article, which prompted him to buy was a pure fake. The reported conversation did not come off at all.

Damage by Wind.

Word came in from the north yesterday of a severe wind storm between here and Bloomington and Peoria.

At Clinton the smoke stack of the electric light works and the planing mill were blown down, causing about $75 damage at both places. Berkeley school house, west of Clinton, was almost wrecked, and several children in the building were hurt.

At Wahella, just above Clinton, dwelling houses were unroofed and the hotel was badly injured. The Methodist church was blown to pieces.

At Midland City, on the T. H. & P. great damage was done to property of all kinds. The wires were blown down, so that communication was cut off with outside towns.

"Naiad Queen" Dates.

The beautiful spectacular and scenic opera, "The Naiad Queen," will be presented by Professor Clark at the Grand on June 17, 18, 19 and 20, with grand family matinee on Saturday afternoon, June 20. There will be 200 performers in rich and elegant costumes and the wonders of the stage will be marvelous—the stage in a storm, flying eagles carrying children, living figures rising from the ocean, realistic fairies in sylvan dells among showers of silver and gold, the Fairy Queen's ride in mid-air, the gorgeous grotto of diamonds, and many other dazzling effects, depicting spring, summer, autumn and winter. The rehearsals have been in progress for some weeks. Plan to see the "Naiad Queen."

THE REVIEW'S special edition has made a great hit. Send in your order for a dozen copies to-day.

Sons of Veterans at Jacksonville.

Preparations for the coming state encampment of the Sons of Veterans at Jacksonville, which will be attended by several from Decatur, are now complete, and the event promises to be a notable one. The entire week, from the 22d to the 28th, is to be occupied by the boys, who have secured the use of the fair grounds adjacent to the city, and expect the attendance of thousands from all parts of the state. The state tents have been engaged, and many celebrities will be there during the week, when there will be sham battles, parades, fireworks, and many other interesting features.

Why Decatur Attracts Business.

A member of a firm that owned a heading factory burned in Indiana recently, was in the city yesterday looking for a site on which to establish their factory here. He was attracted here because of Decatur's superior shipping facilities make all kinds of timber and all markets easily available.

Silver Wedding.

Next Saturday will be the 25th anniversary of the marriage of Mr. and Mrs. Casper Dresden, of this city, and the occasion will be fittingly observed at their home on East Marietta street, both Saturday and Sunday.

Trouble for Street Railways.

A heavy rain like that yesterday evening often brings trouble for the street cars. Both lines were stopped last night, though the Citizens line suffered more inconvenience than the other. One of the gas company's wires sagged down at the corner of Water and Main streets on to a guy wire of the Citizens' line. The rain soaked through the insulation and burned the guy wire off about 5:30. That let the trolley wire down and half a dozen supporting wires at the corner were broken, letting the curve sag down, and making it impossible for the cars to pass. Passengers were transferred there all right.

About 7 o'clock an electric light wire burned off another guy wire, this time in front of the Methodist church. Four or five other wires fell in that neighborhood, and a wire sagged so low at Powers' shoe corner as to be within easy reach of any passing team. It was "alive," and a touch was all that was necessary to make one see stars enough to start a universe. A man was put there to warn passers by.

The Short Line was flooded again just as it has been at every heavy rain since it was built. It seems a little strange that a street railroad here in a metropolitan town should be blockaded on account of high water, but that is just what happens. On Cerro Gordo street the water stands three or six inches deep, enough to ruin an armature. Manager Martin took up section of paving and let the water run off.

Custer Park.

The Decatur party, who, through the courtesy of Mr. Greene, passenger agent of the Wabash railroad, and his charming wife, have spent the past two days at Custer Park, on the Kankakee river, returned last evening. They were enthusiastic over their outing, and unanimously agreed that the fishing, the park and surroundings, and the Wabash railroad, are all in the front rank at the head of the procession. Mr. Greene, always genial and energetic in serving his friends, spared no pains in looking after the comfort of his guests, and he was ably seconded by the landlord of the hotel. Mr. G. is rapidly becoming bald from excess of politeness in doffing his hat to the patrons of the Wabash, and a collection was taken up from the crowd to buy him a bottle of hair restorative.

Of course when all the ladies were young and beautiful, it were invidious to make a distinction, but the preeminence of the graces in Mrs. Charles L. G—— were recognized by the unanimous vote of all the the gentleman, and she was presented with a valuable evidence of their opinion, which she will undoubtedly show her friends among other "bric-a-brac" that ornament her home.

The hotel at Custer park gives excellent accommodations and the table is served with the best in the market. Custer deserves its reputation as a summer resort.

About Our Neighbors.

Terre Haute is putting in an artificial ice factory.

Gilmore's band will give a concert at Danville next Wednesday.

The Peoria delegates to the Christian Endeavor convention at St. Louis went on the steamboat, City of Florence.

An ugly crowd of female base ball players struck Danville Sunday and got up a game with some of the local players. All were arrested and fined, the fines and costs amounting to $7.60 for each person.

The mayors of Urbana and Arcola have issued proclamations ordering all dogs found running at large after June 9, killed. This measure is a result of the hydrophobia scare existing in that part of the state.

Preparations have been completed for the removal of the headquarters of Gen. John T. Underwood, commander-in-chief of the Patriarchs Militant, I. O. O. F., of the world, from Columbus, O. to Springfield.

Prof. L. R. Jacobs, the artist who is illustrating Dr. Beidler's works at Mt. Pulaski, has painted an excellent life-size oil painting of Gen. Palmer, which will be presented to the general at a public meeting at Mt. Pulaski on Saturday evening, June 21, on which occasion an excursion will be run from Springfield to Mt. Pulaski.

Centralia Democrat: The strawberry business has not been a howling success this year. The crop has been short and the prices still shorter. Shipments will continue but a few days longer. Yesterday prices stiffened up somewhat and nearly all returns were good enough to give the growers a profit. The commission men say that fruit shipped in the ventilated fruit cars get to market in much better condition and sells better than when sent in refrigerators.

Called Home.

Death did a cruel thing yesterday. Death is always doing cruel things, but in claiming Mrs. William Ryan, after a long illness, and after promising health, Death was unnecessarily cruel. Mrs. Ryan was sick all winter with heart trouble. When spring came she grew better and everything pointed to her complete restoration to health. Suddenly came a relapse, and the devoted and loving daughter and husband saw all their long efforts unavailing and Death supreme.

Mrs. William Ryan was born in Ireland 56 years ago and has lived 34 years in this city. She was a Christian lady, a true, benignant lady with "charity towards all and malice towards none." She leaves a husband and daughter and THE REVIEW joins sincerely with them and with their numerous friends in sorrow at her taking off.

The funeral will take place Friday afternoon at 2 o'clock from the family residence, 1103 East Eldorado street, and Rev. P. J. Mackin will conduct the services at St. Patrick's church. May she rest in peace.

Help advertise Decatur and send a dozen copies of THE REVIEW'S special edition to your friends.

Of the Republicans.

The republican party in Macon county is in sore straits. They are divided against each other. They would just as soon cut each others throats as eat strawberry short cake. M. F. Kanan who has bossed the party so long has become obnoxious to them. They want him ousted and they want every man recommended by him ousted also. There is no doubt about this. Among the candidates for sheriff are G. W. Kraft, W. W. Foster and "Doc" Maffit. W. W. says he is going to get there so do the friends of Maffit, and of course Kraft's friends are certain of beating any man on earth with their candidate. For county clerk the repubs offer Harry Ehrman, Dick Steele and George H. Hardy, the present incumbent. For county judge, Attorney Edwin Park will be placed in the field, and he will be knocked so far over the fence by Judge Nelson that it will really be difficult to collect matter enough to prove what struck Mr. Park.

During the suspension of work at the coal mine, the Shellabarger Mill & Elevator company had to buy coal wherever it could get it. As a result they used considerable Taylorville coal. Yesterday a contract for a year was made with that company through V. H. Parke & Sons. About 4000 tons of coal will be used.

A sign painter was putting a big tobacco sign on the Gallagher building yesterday afternoon. The Methodist church steps were at a convenient distance for spectators, and they were occupied all afternoon by a crowd who seemed to get great enjoyment from watching the painter. He was an expert.

Notwithstanding the rumors which have been current during the last three or four days to the effect that the cut rate on the railroads would be extended to the 14th inst., the regular schedule has been restored and passengers must now pay full fare to Chicago, Kansas City and Denver. Strawberries are in the market in profusion, grown by our home nurserymen. In size and deliciousness of flavor they are as fine as can be grown. A good many of them weigh a pound or more. EAST MAIN STREET.

"THE :-: POWER :-: BEHIND :-: THE :-: THRONE."

At the Ferriss & Lapham shoe store, 148 East Main street is the same today as it was 25 years ago. This power in years past was sufficient to build up and maintain a trade equalled by few and excelled by none in Central Illinois. How was it done? By giving people better shoes for less money than any competitor. How was this possible? By buying more advantageously and selling more goods. The same power which has been so successful in years past is more mighty today than in the past years. Our watchword is quantity. We are after the volume of the business, not the size of each profit. We have perfect faith that if we sell goods enough, the gross profit will be satisfactory, even though the gain on each article sold be ever so small. Come and see what a small margin of profit we are satisfied with on every article in our stock.
